Alif is as straight as an arrow.

ا

Alif

On its own	ا	A straight line standing tall, all on its own.
Caboose (end)	ـا	Holds hands with the letter before it, but never with the letter after it. A grumpy caboose!

The Astronaut Alif

Alif is a very brave astronaut. He stands as straight and tall as a rocket ready to blast off into space. He never leans over. He stays perfectly upright.
